That the Development Charges Task Force consider the following issues when making recommendation on the new development charges by-law (and supporting background study) to take effect in January 2020:

- Payment deferral options currently in place for residential developments, and their effectiveness;
- Affordable housing incentive options for private sector development;
- The appropriateness of discounting commercial and industrial development charges (from 50% to 100%) where job creation goals are met;
- Mechanisms for deferring development charge- support projects that are “population serving” vs “growth incenting” to ensure stability;
- Look at derelict buildings and extend the development charge waiver up to ten years to encourage demolition and protect development rights;
- Consider development charges being charged within the existing zone category (for example, storage units);
- Reduce the development charge supported projects to specific user groups if appropriate (for example, transferring a portion of growth related costs from non-residential to residential for parks);
- Create a long term development charges plan that affordably funds growth related projects over a realistic timeline without relying on deficit funding to meet projected growth.

12.1.17 CW2019-103

That the April 9, 2019 Memorandum from Directors Marshall, Rojas and Shanks regarding **Active Transportation Master Planning**, be received; and
