

Memo

To: Mayor Letham & Members of Council
From: Councillor Breadner
Date: February 7, 2017
Subject: Accessible Viewing Areas - Lindsay Recreation Complex

BACKGROUND

Several complaints have been received by myself and through the Accessibility Officer for the City that the Lindsay Recreation Complex does not have accessible warm viewing areas for watching the ice pads. The community room upstairs does offer that feature, however, if it is rented out for other functions, it becomes unavailable to watch many of the activities that are happening on the ice.

This is an issue that should be reviewed, in consultation with the Accessibility Advisory Committee, and possible solutions for a warm viewing area for each ice pad be identified for consideration during budget deliberations.

RECOMMENDATION:

RESOLVED THAT the memorandum from Councillor Breadner regarding **Accessible Viewing Areas – Lindsay Recreation Complex**, be received; and **THAT** staff review this issue in consultation with the Accessibility Advisory Committee and provide a report including possible solutions and budget implications for a warm viewing area for each ice pad in the Lindsay Recreation Complex.
