

Memo

To: Members of Council
From: Mayor Letham
Date: July 11, 2017
Subject: Mary St. West, Lindsay

Background

Due to concerns constantly being brought forward to staff and Council regarding Mary Street West between Angeline Street and Wilson Avenue in Lindsay, I am requesting that a review be done by staff to consider options to mitigate concerns regarding traffic flow, speeding, street parking, and safety. This review should include the possibility of creating a community safety zone, crosswalk options, stop sign at Wilson Avenue, reducing the speed limit, increased signage and or eliminating on street parking.

There are several seniors homes in the area and the road is on a large curve with street parking creating limited sight lines and pedestrian concerns.

Recommendation To Council

RESOLVED THAT the memorandum from Mayor Letham dated July 11, 2017 regarding Mary St. West, Lindsay, be received;

THAT staff present a report in Q3 2017 outlining safety and traffic control options for Mary St. West, Lindsay; and

THAT staff provide an update on new legislation allowing photo radar in school and community zones including costing options and the administration aspects of the project.
