Mark Wilson and Steve McGill, Enbridge  
Enbridge Proposed Natural Gas Expansions to Fenelon Falls and Bobcaygeon

Mr. McGill introduced the project as good news for the community as they are closer to bringing Natural Gas to Fenelon Falls and Bobcaygeon. He provided an overview of Enbridge's existing footprint in Kawartha Lakes, the consumer benefits to natural gas, the proposed expansion project, and how the utility is regulated through the Ontario Energy Board (OEB). He stated that a grant is available to assist the expansion project, however it requires a support resolution from Council. The resolution should address support for the project and the financing mechanisms (including property tax deferrals) and must be adopted by the grant application deadline of July 31, 2017. He emphasized that the OEB reaffirmed its position that existing customers cannot subsidize expansion projects. If the grant application, and approval from the OEB is successful, he stated that construction could commence in Spring 2018 in Fenelon Falls, and Spring 2019 in Bobcaygeon with service beginning in the Fall of those respective years. A copy of the presentation is available in the Clerk's Office. Mr. McGill and Mr. Wilson responded to questions from Council.

Limited Service Agreements - Private Roads

Ms. Luzak noted that, as a former Councillor for the Township of Fenelon, she had concerns about the proposal to remove portions of the Limited Service Agreement for the Killarney Bay Cedar Point Association private road. She stated that more residents on this road are becoming full-time residents, and that they feel that services are declining, while taxes are increasing. She noted that a former agreement with the Township of Fenelon may have included a provision for snow removal, but the current agreement did not include such a provision. She thanked the City for the snow removal service in the past, and requested continued snow removal service in the future. Mr. Sproat spoke on behalf of the Association, and stated that while the community largely agrees with the vision that the Mayor and Council have set, that the big picture vision still needs to address the concerns of the small picture. He requested continued winter control service, or the exploration of a reverse area-rating should the service be eliminated.
