Dear Mayor Letham:

Re: Paving of Road

I am requesting Council to budget money for the repaving of Potts Shore Road. The potholes are getting bigger and more plentiful to the point that just filling them is not enough. The sides of the pavement is also being eroded so that the paved part is becoming narrower. The South end of the road has no pavement left and has become just dirt. If upgrading is not done soon, the pavement will disintegrate further.

I am attaching a petition signed by other residents of Potts Shore Road, as well as photographs which demonstrate the condition of parts of the road.

There is some fear that repaving the road will result in more speeding than we now have. To allay those concerns, would it be feasible to put down speed bumps, which could be removed for winter snow plowing?

I look forward to your response.

Yours Truly

Jean Belton

POTTS SHORE ROAD REPAVING PETITION

We, the property owners, along Potts Shore Road, Fenelon Falls, have noticed serious deterioration of the roadway over this past winter. Unless action is taken, the pavement will eventually disappear and the road will revert back to dirt, as has already happened at the South end. Therefore, we ask that council budget some funds for the resurfacing of Potts Shore Road, in the near future.
