

PROPERTY PART LOT 24/E SECTIONS 1+2
AT THE NORTH END OF ST. DAVID

1. Please consider my project to build a self storage facility to be under the Minor Site Approval Process. The project is a 1 acre flat lot with 3 3rd party engineered slabs with prefap steel sheds. There is no water sewer or hydro involved. I have no need of major services from the City. A Preconsultation Meeting was held and the only thing asked for were plans. Therefore I would like to be considered a Plans Only Minor site Approval.
- 2 I would like to have some kind of reduction/relieve from the Development charges I have been told I am supposed to pay. I consider \$210,000.00 dollars to be extreme.
- 3 A deferral of 3 years of any development charges. After the 3 year mark any development charges to be attached to the property tax roll.
