

Residents of Bayview Estate Road

City of Kawartha Lakes

May 30, 2018

Mayor Andy Letham

Councillor Brian Junkin - Ward 7

City of Kawartha Lakes

P.O. Box 9000, 26 Francis Street

Lindsay, Ontario

K9V 5R8

Dear Sirs,

Re: Petition Concerning the Immediate Repaving of Bayview Estate Road

We, the residents of Bayview Estate Road, City of Kawartha Lakes, petition the city to repave Bayview Estate Road.

Being a municipal election year we felt it was a good time to bring to your attention, by way of this petition, the deplorable and unsafe condition of this road and the fact that it requires immediate repaving. It has been many years since it was last resurfaced and currently it suffers from an over abundance of potholes and rough sections. The current condition of the road presents an unsafe situation not only for driving but also for walking and biking. We would also point out that this road is part of a school bus route. Many other roads in the area, be they municipal, county or provincial, have been resurfaced in the recent past.

We demand that Council direct the *Municipal Building Department* to fully fund the repaving of Bayview Estate Road so this action can occur *before or immediatley after the October 22, 2018 election weather permitting.*

## Good Government

### Fiscally responsible service delivery

Created the first **10-Year Financial Plan** that takes into account City requirements for the next decade. The plan incorporates a long-term loan that will be paid down while keeping taxes at a steady and declining rate. Read the Plan at [kawarthalakes.ca/budget](http://kawarthalakes.ca/budget).

Committed to the first long-term plan for sustainable investment in our roads. Read more in the 2018 Budget Book available online at [kawarthalakes.ca/budget](http://kawarthalakes.ca/budget).

Delivered 2017 and 2018 budgets below forecasted tax rate increases while preserving the long-term financial health of the municipality.

### Efficient asset management

Generated more than \$1 million revenue from the sale of surplus municipal property to reinvest in City assets.

To most efficiently deliver more than 200 services, we completed operational reviews on 49 of our core services. Read more about Core Service Reviews at [kawarthalakes.ca/majorprojects](http://kawarthalakes.ca/majorprojects).

Created the first **Asset Management Plan** to catalogue and forecast maintenance and other requirements for \$3.2 billion of total public assets including 200 buildings, 135 parks, 2700 kms of roads and much more.

### Municipal service excellence

To provide efficiency and equal representation for the public, **Council restructured wards and reduced Council size**. The eight new wards will have one Councillor elected for each ward and a Mayor elected City-wide, effective the 2018 Election. Council compensation was reviewed and updated to reflect the responsibilities of an eight-ward structure.

Developed **Customer Service Standards** to ensure the public receives consistent service in person, by phone and online. Upgraded the call centre telephone system with a streamlined directory to allow callers to select commonly requested departments.

### Effective human resource management

Staff continue to apply Lean Six Sigma methods to foster a culture of efficiency and continuous improvement.

Midway through our Strategic Plan and **on track to meet our targets.**

**"Providing responsible, efficient and effective services."**

- Mission from 2016-2019 Strategic Plan
