Subject: RE: 132 Oakdene Cres, Little Britain, ON K0M 2C0

Attention Ann Rooth Deputy Clerk

I am a taxpayer in the City of Kawartha Lakes and I not in support of the deck in the sky that is an invasion of privacy for a number of people. My home is [REDACTED] we are on the uneven side of the road and up in the deck they have clear view of our entire house front and back as well as through windows if they chose with binoculars. Throughout the summer we had company and even getting out of the car they asked what that thing was in plain sight and that it belongs in a natural park where it could be of value as well as safely and properly constructed from beginning to end, not on a quiet residential street. The more the leaves fall the clearer the views they have onto and into peoples homes and property. We don't disapprove of the the idea of the deck only that we don't feel that it's in a proper location on a residential street very unnecessary invasion of privacy.

thank you for your time

Maria Civello
