REASON FOR DESIGNATION

Architectural Design or Physical Value:

The two storey log home is an excellent example of a traditional log cabin within the region that is extraordinarily well-preserved and thoughtfully restored. Many interior fixtures, furnishings and tools that were used to construct the cabin still remain here.

Historical Value:

The property also has historical significance, having served as the base for the logging camp that sent white pine down the Burnt River for export, and was also home to some of the earliest settlers in Somerville Township. The building stands as a time capsule of early farm life and generations of the Graham family. The cabin was built by Robert Graham in 1860, and has been inhabited by successive generations of the Graham family.

Attributes to be Conserved:

The original log walls visible on portions of the exterior and the interior of the building, the original windows and doors and the interior wood plank flooring, ceiling beams, stairs and rails should be conserved.
