# **10-Year Financial Plan**

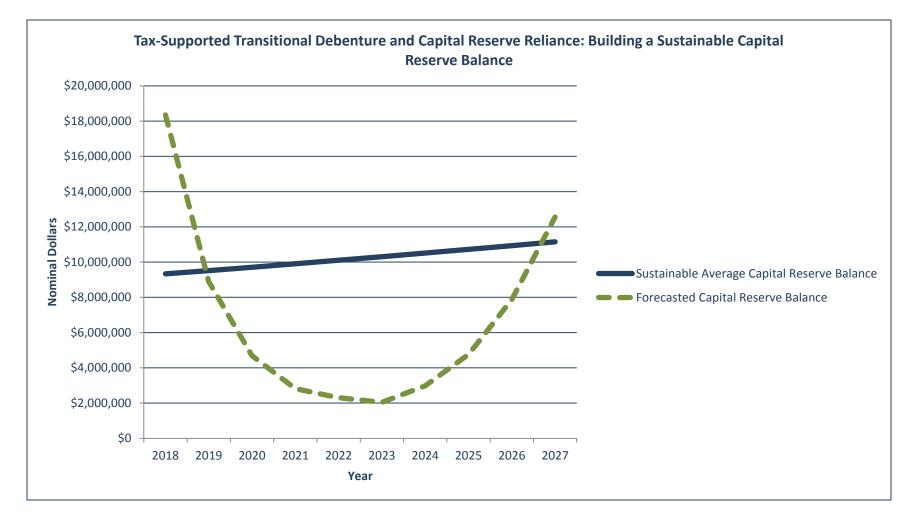

- On July 11<sup>th</sup>, 2017, Council endorsed a 10-Year Financial Plan:
  - Implements the 2017 Asset Management Plan and achieves sustainability on a phased basis.
  - Addresses 2018-2019 operating cost pressures beyond inflationary increases.
- The 10-Year Financial Plan is a living document.
- Staff have updated the 10-Year Financial Plan as a natural part of the 2018 budget process:
  - Capital expenditure increases are now more front-ended to address the capital needs backlog more aggressively (e.g. arenas).
  - Timeframe for sustainability is extended to address increased operating pressures.

#### **Factors Driving 2018 Operating Budget**

- Overall goal of 4.5% tax levy increase is consistent with 10-Year Financial Plan
- Approximately a 2% inflationary increase for various utility accounts and supply of goods.
- Assessment growth at approximately 1%.
- Internal and external operating cost pressures (\$25M debenture is key to ensure these are addressed).

# **Anticipated Operating Cost Pressures**

- Elimination of sale of land reliance
- WSIB premium
- Various payroll related increases
- Right-sizing fleet policy and application
- KRCA special projects
- EORN internet project
- Increase for winter control
- Increase for calcium chloride
- Ash Boar Management Plan
- Increase to sidewalk winter control contract
- Leachate collection legislation
- Office relocation Human Services

# 4.50% Tax Increase Targeted for 2018

- Regular inflationary increases and one-time operating pressures amount to approximately \$7.6 Million for 2018:
  - This is prior to adjustments for assessment growth, repayment of \$25 Million debenture and operating transfer to capital.
  - Represents an approximately 7.36% tax increase.
- Incorporating the 1% estimated assessment growth and the \$2.9M/year repayment of the \$25 Million debenture brings the tax increase up to 9.12%.
- Transfer to capital from operating is reduced by approximately \$4.8 Million (or 4.62% of tax levy) to bring the tax increase down to the 4.50% target.
  - Capital financing shortfall is covered by infusion of \$25 Million debenture into the capital reserve.
