Background:

The Lindsay Ops Landfill Public Review Committee (PRC) was established to comply with the Environmental Compliance Approval ECA #A321504, condition 13 for the site. The PRC's mandate is specific to the Lindsay Ops landfill site which includes the landfill, the landfill property and associated leachate piping up to and upon entering the Lindsay Wastewater Pollution Control Plant (WPCP). The Lindsay WPCP and outfall is governed by a separate ECA outside of the mandate of the PRC.

Under the updated Terms of Reference (2018) for the Lindsay Ops PRC, their activities include preparing, each year, an annual Work Plan for the succeeding year. The Work Plan is to include details on promotion of public education programs, review of government correspondence relating to the site, programs and legislation for any impacts on the Site or its programs, and future City policy direction all with the view of advancing the City's adopted strategic priorities and the proposed budget.

This report provides an update below in the rationale section on the status of activities approved in the 2019 committee work plan. The 2020 Work Plan has been reviewed by the Lindsay Ops PRC and they made the following resolution at the November 13th 2019 committee meeting.
