More specifically, the pipeline will be contained within Parts 4, 5 and 6 on 57R-10822 and the laterals will extend from the pipeline and to the property lines on the Lands;

TOGETHER WITH the right of the Grantee and its servants, agents, contractors and workmen with all necessary materials, equipment, machinery and vehicles to enter upon the Lands at all times and to pass and re-pass thereon for the purposes of installing, constructing, reconstructing, examining, altering, maintaining, repairing, renewing or replacing the said gas pipeline or any part thereof.

In the event that the Grantor wishes to build upon the Lands and is able to do so without interfering with the Easement, but the Grantor is subjected to additional costs as a result of the Easement, then the Grantor is entitled to invoice the Grantee for the additional costs and the Grantee is required to pay same.**

AND the Grantor covenants with the Grantee:

- a) To keep the Lands free and clear of any buildings, structures or obstructions;
- b) Not to deposit on or remove any fill from the Lands, and
- c) Not to do or suffer to be done any other thing which may or might injure or damage any of the works of the Grantee herein.

AND the Grantor covenants with the Grantee that it has the right to convey the said rights and easement to the Grantee, notwithstanding any act of the Grantor.

AND the Grantee shall have quiet possession of the said rights and easement, free from all encumbrances excepting those noted on title, being third party interests in the property as a right of way. **Grantee covenants with the Grantor to do its repair, maintenance and removal work so as not to restrict third party access and to minimize interruption to the Grantor's use of the Lands as a parking lot.**

AND the Grantor and Grantee each covenant to the other that it will execute such further assurances of the said rights and easement as may be required.

AND the Grantee covenants and agrees with the Grantor that it will remove the gas service and fill in all excavations and restore the Lands and premises to the condition existing prior to any entry thereon at the time that the gas service is abandoned.

AND the Grantee covenants with the Grantor:

- a) All work shall strictly conform to the design drawings provided to and accepted by the Grantor as of and following the date of the Easement, and kept on file with the Grantor;

- b) The pipeline shall be contained within the easement, but the laterals will be contained outside the easement within the Lands. Should, during the construction, the Grantee necessarily need to make slight modifications to the location of the pipeline due to unforeseen circumstances such as drainage/ sewer pipe placement, catch basins, large underground rocks, the Grantee will submit revised easement drawings to the Grantor and the location of the easement will be amended by amendment to this agreement and registration of the amended document on title to the Lands. In the event of an emergency, the Grantee shall proceed with the work required to deal with the emergency and will use its best efforts to provide the Engineering Department of the Grantor with immediate notice of the location and the nature of the emergency and the work being done and, if it deems appropriate, notify the police force, fire, or other emergency services having jurisdiction. The Grantee shall provide the Engineering Department of the Grantor with at least one 24-hour emergency contact for the Grantee and shall ensure the contacts are current; and
- j) All work and any damages to the parking lot or other infrastructure shall be restored to the satisfaction of the Grantor.
