There were no declarations of pecuniary interest disclosed.

3. Public Meeting

The Chair stated that, as required under the Planning Act, a public meeting is being held prior to the City of Kawartha Lakes Council making decisions on the following planning matters.

3.1 PLAN2020-033

Ian Walker, Planning Officer - Large Developments

An application to amend the Town of Lindsay Zoning By-law 2000-75 for Lots 1 through 94, 108 through 113, and 122 through 146 in draft plan of subdivision 16T-88009 on the property identified as Vacant Land on Angeline Street North, Lindsay - CIC Developments Inc.

3.1.1 Public Meeting

The Chair requested staff to advise on the manner of giving notice for the proposed Zoning By-law Amendment. He also asked staff to briefly describe the proposal and summarize the correspondence, if any, received to date.

Mr. Walker confirmed that the required notice was given in accordance with the Planning Act and circulated to each owner of land within 120 metres, and a sign was posted on the subject property. He summarized the application, explaining that it proposes to increase the maximum lot coverage from 35% to 45% for Lots 1 through 94, Lots 108 through 113, and Lots 122 through 146 in draft plan of subdivision 16T-88009, which was draft approved by Council on June 19, 2018. The net result of this proposal will only amend the maximum lot coverage provision for the proposed lots noted above. The application is consistent with the Provincial Policy Statement, conforms to the Growth Plan and the Lindsay Official Plan. Mr. Walker summarized the comments received to date, as detailed in his report, noting that subsequent to the writing of the report additional comments were received from the neighbouring developer, the Orsi Group, who objected to the application noting concerns with access from this development to Highway 35. A letter of response from the applicant's solicitor, N. Macos, was also received noting that this application only proposes increased lot coverage, and no additional approval lots. Staff are recommending that the application be referred to Council for approval.

The Chair inquired if the applicant wished to speak to the application.

Michael Bissett spoke as the applicant, stating that they agree with the recommendations from the report, and he noted that, in response to the Orsi Group's letter, that the application before the committee today does not add lots, it just increases the lot coverage permitted on the lots. He stated this will have no impact to traffic from what is already approved.

The Chair inquired if anyone wished to speak to the application.

No other persons spoke to the application.

The public meeting concluded at 1:11pm.

Ms. Rea summarized the comments received to date, as detailed in her report, noting that subsequent to the writing of the report additional comments were received from

3.4.1 Public Meeting

The Chair requested staff to advise on the manner of giving notice for the proposed Zoning By-law Amendment. He also asked staff to briefly describe the proposal and summarize the correspondence, if any, received to date.

Mr. Harding confirmed that the required notice was given in accordance with the Planning Act and circulated to each owner of land within 500 metres, and that a sign was posted on the subject property. He summarized the application, explaining that it proposes to change the zone category on a portion of the property in order to permit an approximately 600 square metre truss manufacturing facility. The shop is proposed as a secondary use to the farm operation. A reduction in the number of required parking spaces for the business is sought, along with some other general provisions. Review of the application for consistency with the Provincial Policy Statement, and conformity to the Growth Plan for the Greater Golden Horseshoe and the Kawartha Lakes Official Plan is still ongoing. Mr. Harding summarized the comments received to date, as detailed in his report, noting that subsequent to the writing of the report additional concerns were received from the following individuals:

- J. Goudie
- G. Statrosta; and

- J. Putnins

He summarized their concerns stating that they mostly dealt with the placement of the facility, scale of manufacturing, loss of agricultural land, access to the existing road network, and questions about the planning justification report. He also noted a letter of support was received from A. Martin, and that no concerns were raised from the Agriculture Development Officer. He further stated that in response to the comments received, the Development Engineering division is requesting a Traffic Impact Statement. Staff are recommending that the application be referred back to staff until such time as all comments have been received from all circulated agencies and City Departments, and for further review and processing. Mr. Harding and Ms. Sisson responded to questions from Committee members.

The Chair inquired if the applicant wished to speak to the application.

Emma Drake of D.M. Wills spoke as the applicant, and provided a summary of the application. She noted that the proposal is an on-farm diversified use secondary to the principle agricultural use on the property, and that the proposal will support the agricultural community by building roof trusses for agricultural buildings. She responded to the concerns raised stating that the building will maintain the rural character of the area, and setback from the property line, and that none of the concerns directly opposed the manufacturing of roof trusses. She noted that traffic increases would be minimal, and concurred that further analysis may be required, and hoped to see this come back to a meeting in the near future.

The Chair inquired if anyone wished to speak to the application.

No other persons spoke to the application.
