

Council Memorandum

Date:	October 5, 2021
To:	Council
From:	Councillor Elmslie
Re:	The Village of Sturgeon Point

Recommendation

That the memorandum, from Councillor Elmslie, regarding **The Village of Sturgeon Point**, be received;

That an enhanced level of service be provided for Lake Street and Henry Street from the point where snow plowing currently ends, to Forest Avenue; and

That these recommendations be brought forward at the next Regular Council meeting for consideration.

Rationale

As detailed in the attached document, these roads had previously received municipal services. However, over the past ten years there is no record of this route receiving services and thus, it has fallen into disrepair. In conversation with Public Works, they view this section as unassumed and have asked that a memo from Council, requesting an enhanced level of service, be passed, if service is required.
