ndsay

Feeling under the weather?
GET ACTIVE! People with low fitness levels may take twice as many days off work as their very fit counterparts. Moderate exercise, like a leisurely bike ride or hike, will boost levels of euphoria-producing hormones called endorphins. Translation: You can exercise away your blues!

HEALTHY LIVING FACTS

Many research findings and studies show that hiking is an excellent way to lose extra pounds and improve overall health. We don't necessarily need to do heavy and painful workouts, but just a short, brisk walk of a few minutes can be more than sufficient.

Physical activity is something that everyone can do!

You don't need to run a marathon or spend hours at a gym. Look for simple ways to get active, every day.

- Take a walk once a day
- Take the stairs instead of the elevator
- Play actively with your kids
- Walk, wheel or cycle for short trips
- Use nearby walking and cycling paths.
