Subject: Historic Building on Melbourne East

Ms.Emily Turner, I am sending this as a follow up to our telephone conversation.Myself and several neighbours have expressed serious concern over future plans to a century home (25 Melbourne East)that was recently sold.It was brought to our attention from the former residents of this property that the future owners intend to destroy the existing building and build two new buildings to rent.I as well as others in this community have treasured the older homes in this area.The home in mention is from the year 1860.One of the first homes to be built in this community.The area is currently undergoing a heritage conservation district study that has only been delayed by Covid .Several neighbours have contacted the mayors office,Patrick O'Reilly (councillor)and are in the process of completing a petition to deem this house a heritage site .I hope that you can help save this historic area and homes in it so that future generations can treasure them .Kind regards,Stacy Meenan
