

The City of Kawartha Lakes Active Transportation Master Plan

Committee of the Whole Meeting
February 8, 2022

Presentation Outline

- ATMP Objectives
- ATMP Integration and Project Process
- Consultation Program
- ATMP Task Force
- Next Steps

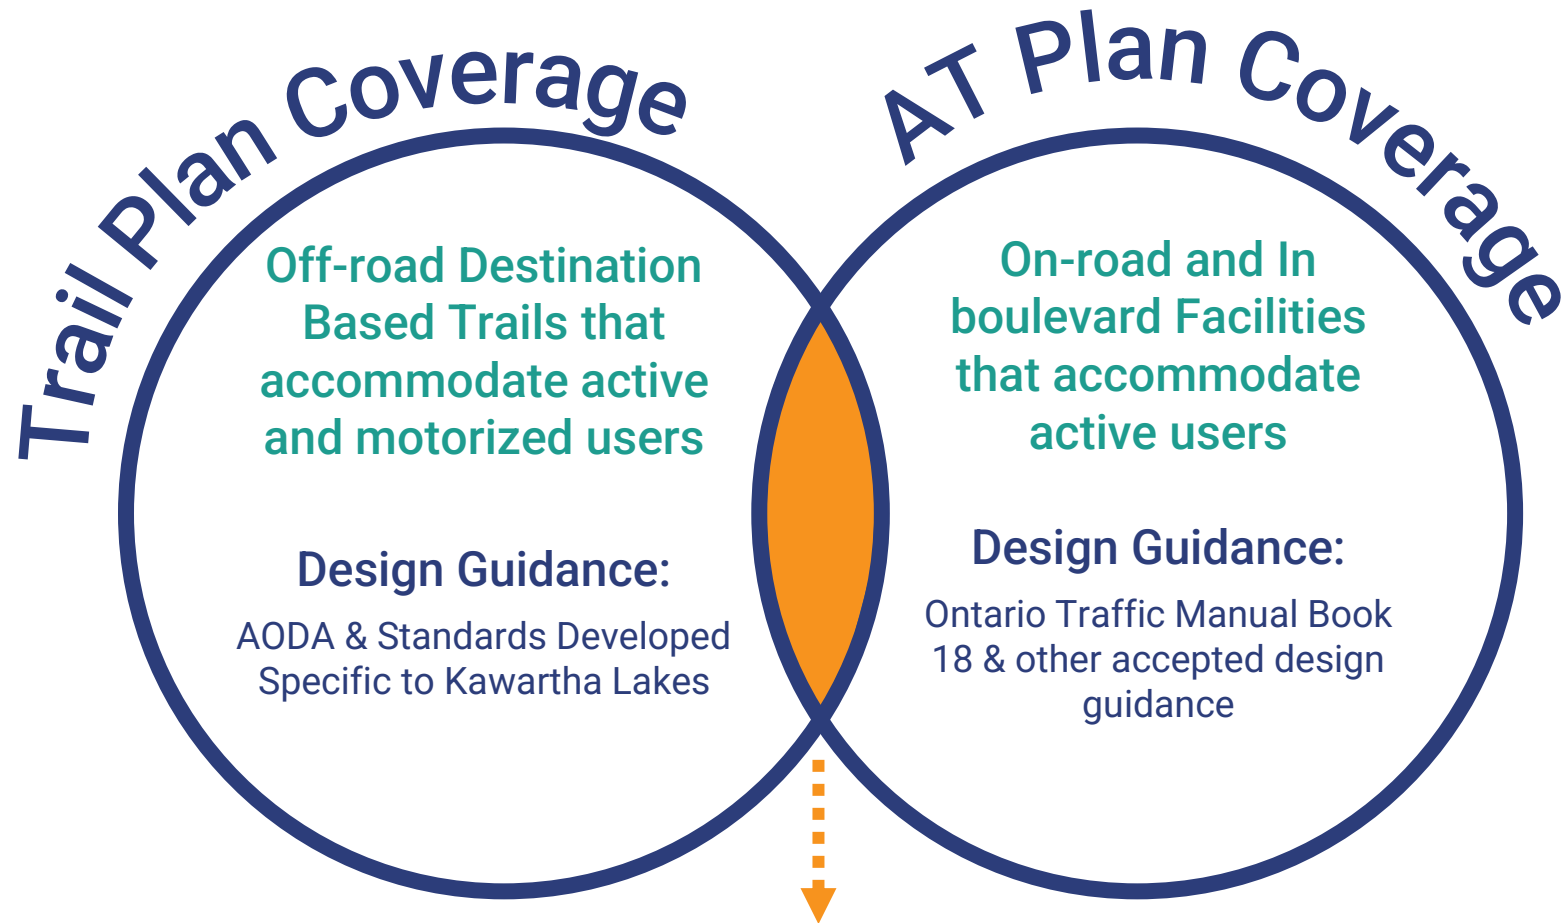

ATMP Objectives

- Overall goal is to enhance the City's active transportation network in line with Council direction and various City's planning policies
- Objectives of the Active Transportation Master Plan (ATMP) are to:
 - Develop strategy for safe, equitable and comfortable alternative transportation methods – walking, cycling, etc. – for residents, tourists and visitors of Kawartha Lakes
 - Recommend and prioritize a short-, medium- and long-term implementation plan
- Integrate with on-going Trail Master Plan Update

*City of Kawartha Lakes is a large municipality with a **large and diverse** population of road and active transportation users.*

ATMP Integration

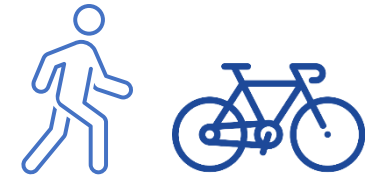

Key considerations:

1. Where appropriate, the ATMP will identify improvements to on-road routes that connect trails
2. Prioritization and phasing of routes should be complementary
3. Continuity of design should be achieved where feasible and appropriate
4. Signage will be covered by both projects but branded signage will be part of the trails scope

Recreation & Transportation Mobility

Project Process Overview

Project Initiation
October 2021

Project Completion
March (Spring) 2023

Pre-Consultation
Launch

Round 1
Engagement:
Foundations

Round 2
Engagement:
Development &
Design

Round 3
Engagement:
Prioritization

1

2

3

4

Phase 1
Part 1
Getting started

Phase 1 Part 2
Background Review
& Foundations

Phase 2
Network Recommendations
& Priorities

Phase 3 Part 1
Implementation, Costing,
Maintenance & Operations

Phase 3 Part 2
Documentation

- > Develop Stakeholder and Consultation plan
- > Pre-Consultation launch - study website and online survey
January 2022

- > Review foundational policies and programs
- > Review existing AT routes and opportunities to inform the development of the ATMP vision, objectives, and guiding principles.

- > Identify, confirm, design and prioritize the proposed AT network
- > For example, loop routes and circuits, amenities, maintenance strategies and signage and wayfinding

- > Develop implementation strategies for the proposed AT network
- > Develop strategies to support ATMP recommendations (e.g. communication, education, encouragement, evaluation, evaluation, maintenance, monitoring and funding).

- > Final Documentation of ATMP
- > Presentation to Council

ATMP Consultation Program

- There will be extensive consultation and engagement.
- Stakeholders will include:
 - City Staff & Decision Makers
 - ATMP Task Force
 - Members of the Public
 - Technical Advisory Committee
 - Indigenous Communities
 - Equity Seeking Groups
 - Stakeholders (include local businesses and interest groups)

Active Transportation Master Plan

Facebook Twitter Instagram Email

A first of its kind for the municipality, Kawartha Lakes is developing an Active Transportation Master Plan (ATMP) to identify a continuous and connected network of safe, comfortable and sustainable active transportation routes and facilities. The ATMP aims to create more and improved opportunities to use active modes of transportation, like walking, cycling and rollerblading, as well as mobility devices for people of all abilities.

Have your say below, by filling out the survey, participating in the discussion board or leaving a question or comment.

Background:
The ATMP is scheduled to be complete by March 2023. In that time [Continue reading](#)

Key Dates
Online Engagement #1
December 2021 → February 2022
Committee of the Whole Presentation
March 08 2022
Technical Advisory Committee Working Meeting #1

ATMP Task Force

- To represent community members and groups.
- **15 Members:**
 - One Council Representative, up to eight (8) Stakeholders, and up to six (6) Members of the Public;
 - To elect a Chair and Vice-Chair from its membership
- **Mission and Activities:**
 - A review body that provides advice and recommendations to Council and Staff on strategy and policies
 - Review and comment on project deliverables in all project phases

ATMP Task Force

- Terms will end November 14, 2022 to coincide with current term of Council; an extension shall be recommended once a new Term of Council begins
- A minimum of four (4) meetings during the term
- Task Force recommendations will be brought forward to Council via DS-Planning Division through a report to Council

Next Steps

- Gather initial feedback from online survey
- Conduct background and best practice review
- Prepare existing conditions maps
- Establish and confirm Task Force membership
- Prepare Round 1 Engagement re: Background review

Thank you!
