## **Background:**

The Fenelon Landfill Public Review Committee (Fenelon PRC) was established in 2013 in order to comply with Conditions 12 to 16 (inclusive) of Environmental Compliance Approval (ECA) No. A321206 for the landfill site.

Under the Terms of Reference for the Fenelon PRC, their activities include preparing, each year, an annual work plan for the succeeding year. The work plan is to include details on public education and diversion programs, review of government correspondence relating to the site, and review of any legislative changes that may impact the landfill site or its programs. The work plan is to be consistent with the City's policy and adopted strategic priorities and to be within the proposed budget.

This report provides an update (further detailed in the rationale section) on the status of activities approved in the 2021 committee work plan and proposed 2022 work plan. The 2022 work plan has been reviewed by the Fenelon PRC, and the following resolution was made at the November 24, 2021 Fenelon PRC meeting.

**Resolved That** the Fenelon PRC support the 2021 work summary and the 2022 work plan.

**Moved By** J. Taylor

**Seconded By** R. Coleman

No other alternatives were considered.

### **Alignment to Strategic Priorities**

The Fenelon PRC provides a link between the City and the public by providing a forum for open dialogue regarding the Fenelon landfill site.

The activities of the PRC align with the Strategic Priorities of "A Healthy Environment", as the committee provides input on activities that support the protection and enhancement of water quality surrounding the landfill.

The Fenelon PRC also provides input as staff work to implement the recommendations in the Integrated Waste Management Strategy as an item under the Healthy Environment Section of the Strategic Plan.

### **Financial/Operation Impacts:**

There are no financial implications that resulted from the 2021 work plan. The proposed 2022 work plan has no financial impacts.
