

Elm Tree Road has become a very busy road and runs through predominantly rural and farming areas. Excessive speed on a narrow and hilly road make for a dangerous situation, as well many large farm vehicles access and egress the many farm properties, creating an added risk, there are also several school bus stops which also create another potential unsafe situation.

Therefore we the undersigned residents on or near 2781 Elm Tree Road, request that the City of Kawartha Lakes reduce the speed on Elm Tree Road from the current 80 km to 50 km. That this speed reduction cover the area from 2643 to 2848 roughly 1 km.
