

Council Memorandum

Date:	September 7, 2021
To:	Council
From:	Councillor Ashmore
Re:	Snug Harbour Road Network

Recommendation

THAT the Memorandum from Councillor Ashmore, regarding the **Snug Harbour Road Network**, be received;

THAT staff conduct a a Traffic Load Study to determine current road classification for road maintenance & repair; and

THAT staff report their findings to Council by the end of Q1, 2022.

Rationale

Snug Harbour is a heavily populated, year-round community, northeast of Lindsay. The community has grown significantly over the past 40 years. In the last 10 years especially, there has been an increase in traffic and this has put pressure on the roads system.

There is a proposed new development within the community, on the east side, which will bring even more traffic and road use. Under the current road classification, sections of the Snug Harbour road network are repaired temporarily, when needed. The community would like to be included in the 5 Year Roads Plan and would appreciate it if the roads network could be updated within the next few years.
