Our Community's Capacity to Care

February 2, 2023

Priority Fundraising Initiatives

Dual Energy CT Scanner

Advanced MRI

Clinical Information System

With CKL Council's leadership gift in 2021, and the ongoing support of local donors, we are committed to funding these critical needs that are not covered through provincial funding.

Emerging Capital Priorities Identified Through Master Plan (5-10-20 years)

Emergency Department Expansion including a Mental Health Emergency Services Unit (MHESU) and Trauma Room with Airborne Isolation Capacity

Expansion and modernization of the ICU with increased patient capacity and the creation of Airborne Isolation Rooms

Our community counts on the Ross to provide the best care possible, now and in the years to come. With every gift, donors show us how much they care about their community hospital. **We know you do, too.** We respectfully request that Council consider the information and the Hospital's request for financial support during the upcoming Budget deliberations.

Thank You
