## **Background:**

The Lindsay Ops Landfill Public Review Committee (PRC) was established to comply with the Environmental Compliance Approval ECA #A321504, condition 13 for the site. The PRC's mandate is specific to the Lindsay Ops landfill site which includes the landfill, the landfill property and associated leachate piping up to and upon entering the Lindsay Wastewater Pollution Control Plant (WPCP). The Lindsay WPCP and outfall is governed by a separate ECA outside of the mandate of the PRC.

Under the updated Terms of Reference (2018) for the Lindsay Ops PRC, their activities include preparing, each year, an annual Work Plan for the succeeding year. The work plan is to include details on public education and diversion programs, review of government correspondence relating to the site, review of the annual monitoring report and review of any legislative changes that may impact the landfill site or its programs.

This report provides an update below in the rationale section on the status of activities approved in the 2022 committee work plan. The Lindsay Ops PRC has reviewed the 2023 Work Plan and they made the following resolutions at the January 18, 2023 meeting.
