

# Petition for Road Resurfacing

## Hamlet of Hickory Beach

**Petition summary and background**

Condition of roadways within the Hamlet of Hickory Beach. Sandy Point Road, Gray Road, Sandy Point Road was scheduled to be resurfaced in 2014 and was put off until 2016 and was again deferred in 2016. This road is heavily used by both pedestrians, cyclists and vehicles. The condition of the road surface has deteriorated so badly that cyclists and vehicles are swerving constantly to miss pot holes creating an unsafe environment for pedestrians and other users of the roadway. The City has paid out significant funds for crews to repair the potholes 2-3 times per season resulting in a very short term impact due to the lifespan of the patching process.

We, the undersigned, are concerned citizens who urge our leaders to act now to have the noted roads resurfaced in 2017.
