This request is a follow up to the deputation I presented last Fall on Energy Security.

I will present survey results that identify how Canadians feel about the priorities that they expect our municipal governments to address in order to safeguard themselves and their families against the adverse effects of poorly-considered public policies.

The deputation will acknowledge the current limitations of Municipal authority to address Energy Security concerns. It will also suggest ways for Council to better represent the constituents of CKL on the broader provincial stage on this vital matter.

Energy Security is a concern that is not going away. It impacts Food Security, Housing costs, transportation costs and the cost of living in general. Advocates for Civil Society will continue to urge Council to make this a top priority in the interests of every CKL resident.

Please attach any additional supporting documents you wish to provide and submit with this completed form.

Council to actively lobby provincial and federal authorities to oppose policies that have systematically threatened the Energy Security of our inhabitants and business operators.
