

Staff Memo

A message from Joseph Kelly, Traffic Management Supervisor

Date: December 1, 2023

To: Aaron Sloan

From: Joseph Kelly, Traffic Management Supervisor

Re: 2023 ATV Counts Update

Count Location

Further to the staff memo dated October 18, 2022 regarding the Lindsay ATV route vehicles count, staff performed new counts at the same locations as well as an additional count on the Victoria Rail Trail in Fenelon Falls, just south of Ripple St.

Count results are shown in Table 1. For your convenience the 2022 count results are included. Please note that the Angeline St N 2022 ATV count failed to record data.

Count Duration

The 2023 counts for the Lindsay ATV route on Angeline St N, Elgin St, and Logie St occurred from May 19th to June 14th 2023. In order to obtain a meaningful comparison, the dates and duration selected closely match those from the 2022 count. Both counts include the May long weekend.

The Victoria Rail Trail count location was newly added. Therefore, the dates and duration was chosen based on staff schedule while insuring a good representation of seasonal volumes were captured. The count occurred from July 28th to August 4th, 2023.

Table 1 – ATV Count Results

Average Day	2022 Logie St	2023 Logie St	2022 Elgin St	2023 Elgin St	2023 Angeline St N	2023 Rail Trail, Fenelon Falls
