

# Lindsay Ops Landfill Public Review Committee

## Action List

Updated: March 13, 2025

Item	Action/Task	Person Responsible	Update
6.1	Reports: Technical Reports & Studies on Operations	Operations	None to report
6.2	Leachate Outbreaks	Operations	None reported
6.3	Landfill Complaints	Operations	None to report
6.4	MECP Comments	Operations	<p><b><u>ECA Amendments:</u></b> The ECA Amendment Applications submitted for the Scale and Drop off project and the Update to Contours, were withdrawn on March 12, 2025. The MECP had requested an updated design and operations report. The City will re-submit the applications once a report is developed.</p> <p><b><u>Spill Reported:</u></b> On March 12, 2025, a contractor was lifting a full bin when a hydraulic line on their vehicle broke. Approximately 10L of hydraulic fluid was spilled in the pavement. Staff acted quickly to contain and clean up the spill with sand. The contaminated sand was swept up and placed into buckets. The buckets have been placed in the HHW building for proper disposal.</p> <p>The MECP, Spills Action Centre was notified as well as the local MECP Inspector was notified via email.</p>
6.5	Monitoring Updates	Operations	<p><b><u>Site Inspection:</u></b> On Tuesday, March 11, 2025 - Litter was noted on adjacent property and property owner was notified.</p> <p><b><u>PCB Sampling SW3/SW13:</u></b> The last round was in October 10<sup>th</sup>, SW3 no PCB's detected and SW13 was dry. Next Round in April 2025.</p>
6.6	Capital Project Updates	Engineering & Corporate Assets	<p><b><u>Scales &amp; Drop off Area Design:</u></b> The cost estimate for the project was higher than expected and Engineering is reviewing feasible options/modifications to the original design.</p> <p><b><u>EA:</u></b> No update – Engineering is working on the RFQ</p>
