

Lindsay Ops Landfill Public Review Committee

Action List

Updated: Jun 12, 2025

Item	Action/Task	Person Responsible	Update
6.1	Reports: Technical Reports & Studies on Operations	Operations	None to report
6.2	Leachate Outbreaks	Operations	None reported
6.3	Landfill Complaints	Operations	None pertaining to operations – a few for brush charges
6.4	MECP Comments	Operations	<p><u>No update: ECA Amendments:</u> The ECA Amendment Applications submitted for the Scale and Drop off project and the Update to Contours, were withdrawn on March 12, 2025. The MECP had requested an updated Design and Operations report. The City will re-submit the applications once a report is developed.</p> <p>New MECP Inspector on site for an orientation as well as an inspection June 10th. No concerns reported verbally.</p>
6.5	Monitoring Updates	Operations	<p><u>Site Inspection:</u> Some construction material was dumped on Lagoon Rd near soil piles, but was cleaned up immediately.</p> <p>Waste Tech – Completed May 15, 2025, site was in good condition. Noted North Culvert is in need of debris removal, high dust on roads, grass cutting required around ponds and litter fencing in need of repairs (RFP in progress). Verbally reported to Landfill Supervisor.</p> <p><u>PCB Sampling SW3/SW13:</u> The last round was in April 2025, SW3 no PCB's detected and SW13 was dry. Next Round in October.</p>
6.6	Capital Project Updates	Engineering & Corporate Assets	<p><u>Scales & Drop off Area Design:</u> Project on hold. Engineering is working with the MECP to develop a Design and Operations report to consolidate the Operations manual and design plans for the site.</p> <p><u>No update EA:</u>– Engineering is working on the RFQ</p>
